

PLAN FRENCH OPERA.

A French opera, given in French, is the promised performance of "The Chimes of Normandy," the first rehearsal for which will be held this evening at 8:30 at the Arts Club. Members of the French High Commission, of the Roumanian Commission, and other singers of the allied official families in Washington will take the principal parts. The opera will be given in the auditorium of the Central High School. It is for the benefit of the French refugees of Rheims. About two months will be spent in preparation.

Come Mother, This Castor Oil Is What You Need—Don't Cry!

If you, mother, had to swallow the awful dose—Think back to your childhood days—Ugh! Give your children Cascarets instead. Cascarets taste like candy. Every child loves to take a Cascaret. Besides Cascarets act better on the little liver and bowels when the child is bilious, constipated, feverish and sick. Cascarets are delightful—harmless—cheap!

Each 10 cent box of Cascarets, the pleasant candy cathartic, contains directions and dosage for children aged one year old and upwards. When the little one's tongue turns white, breath feverish, stomach sour, there is nothing better to "work" the nasty bile, souring food and constipation poison from the child's system. Give Cascarets, then never worry.

E. C. ROGERS, Business Manager, THE WASHINGTON TIMES.

"MADE IN U. S. A." MARK FAVORED

NEW YORK, Oct. 2.—"Made in U. S. A." in plain type form on all articles made in the country is recommended by the Merchants' Association of New York, which thus joins in the movement to standardize the mark which American manufacturers are determined to make more familiar than "Made in Germany" ever was. It was announced yesterday that the executive committee of the association had adopted resolutions to that end, acting at the suggestion of the Bureau of Foreign and Domestic Commerce of the Department of Commerce.

The weight of the decision by the local business organization will have much effect elsewhere in the country, and other cities are expected to adopt the same form.

The resolutions have been sent to Washington and to all members of the association. They argue that "the best interests of our country are served when all goods manufactured here can be readily identified at all times from goods manufactured elsewhere," and that "the identification of the country or origin of any goods is facilitated by the use of a single designation." It is resolved, therefore, plain type form be used by all its members on all goods manufactured by them in the United States of America, and that "that the designation 'Made in U. S. A.' in the use of all other markings to identify the country of origin of such goods be discontinued."

HUN LAUDS PRESIDENT

The Review die Hiltz, a German publication, pays President Wilson a sincere tribute. Deputy Naumann, the writer, deprecates the lack of political leaders in Germany and says that in this respect Germany is inferior to the United States. He calls President Wilson a "sort of emperor of nations, whose humanity is known and who knows how to make the people understand him."

WILL OPEN WORK ROOM.

The surgical dressings committee of the War Relief Association, Department of Agriculture, will open a workroom on the third floor of the Homer building, Thirteenth and F streets northwest, Wednesday, October 2. Employees of the Department and their families are invited to assist in this work. For the present this room will be open on Mondays, Wednesdays and Fridays from 9 to 4:30 for persons not employed in the Department, and after 4:30 for employees.

GERMANS SINK FOUR SHIPS WHOSE MEN MUTINY

COPENHAGEN, Oct. 2.—Four German torpedo boats, whose crews mutinied and attempted to take them out of harbor during August, were pursued by cruisers and sunk, according to information received here today.

The occurrence is said to have been confirmed by the washing ashore of 160 bodies. Thirty-six German sailors were executed at Kiel recently as the result of a mutiny against submarine duty, it is reported.

Several mutinies occurred among German and Austrian soldiers in the Ukraine during September. At Kherhof 6,000 Austrians are reported to have refused to go to the west front.

RAILROAD TRAFFIC SHOWS BIG GAIN

Big war profits and higher wages have thrown on the national railways an unprecedented burden of passenger traffic. This was revealed in a report covering railroad operations last week made public by the Railroad Administration.

Never before have skilled and common laborers taken so many vacations which include train rides, the report says. A majority of the through traffic is of this class. But everybody is traveling to an extent which breaks all records, according to the statement.

Preparations to meet the winter's spasmodic demands on the transportation facilities have been started in every section. Anticipation of emergencies has brought stringent orders for re-routing and fuller utilization of motive power and rolling stock to avoid shortages.

Arrangements are being made to prevent a repetition of last winter's congestion at important terminal points. For the passenger service, winter schedules are being worked out. Winter schedules for seashore resorts will go into effect October 13 in the Potomac region.

Marked by the heaviest freight movement since the Government took control of the rail lines, the transcontinental routes nevertheless were cleared during the week, the report shows. In this great movement of freight, coal made up an important part. A. H. Smith, eastern regional director, reported that the entire New England section is receiving all of the coal for which it has unloading facilities.

The embargo on merchandise through Cincinnati on the Chesapeake and Ohio has been lifted. This leaves the route open on the central lines from the Mississippi river at St. Louis to tide water at Norfolk.

In the central West, the livestock movement has kept stock yards at Kansas City and Omaha full to overflowing, the report says. The establishment of a new shipping system, however, has enabled the roads to handle this heavy traffic without serious difficulties.

TO SHIP CANNED FISH TO ALLIES

The "Eat Fish and Help Win the War" slogan may be extended to foreign lands.

Many Senators have become interested in the plan to ship canned fish to our allies.

Experts from the chemistry department of the Department of Agriculture agreed that there were magnificent possibilities of extending the canned fish market. Many details must be worked out, they said, but they believed the plan to be sound.

Valuable work is being done in standardizing and improving the canned fish industry, the experts testified.

RESCIND DRASTIC ORDER

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 2.—Captured documents in the hands of the American forces are to the effect that the German decision during the court-martialing of American aviators caught dropping propaganda pamphlets has been rescinded.

Only aviators having propaganda in their possession will, on trial, with as "special cases" by the German commanders.

U-BOAT CHASER SUNK

The members of the crew of submarine chaser No. 60 are today reported missing after the vessel had been sunk yesterday in a collision with the oil steamer S. W. Waller, off the New Jersey coast. Mechanist Mate Walter H. Kluth and Seaman Martin A. Wilson are the missing men, according to the Navy Department.

STATUE FOR BAKER

PARIS, Oct. 2.—Secretary Baker will have with him a miniature bronze statue made of German cannon captured at the second battle of the Marne and symbolizing the defense of Paris when he goes back to America. It is a replica of the Eusebe Poliorhique, the big French military school.

REQUIRE TRUE NAMES

BOSTON, Oct. 2.—Charged with violation of the "True Name law," more than 100 men and women were arrested during raids on hotels and lodging houses.

The raids, made on orders issued by the Licensing Commission, were the first under the new law providing that guests at a hotel or lodging house must register under their true names.

PUBLIC SCHOOLS CLOSED.

SPARTANBURG, S. C., Oct. 2.—All public schools, theaters and amusement places have been closed by city authorities because of the Spanish influenza epidemic.

MINERS URGE PAY RAISE

Discussion of the demands of miners in the Pennsylvania anthracite fields for increased wages will continue tonight at a conference of union leaders with Fuel Administrator Garfield and Secretary of Labor Wilson.

George C. Lewis and William Greene, vice president and secretary of the United Mine Workers of America, and James Matthews, Thomas Kennedy, and John Dempsey, district presidents in the anthracite regions, together with about thirty representative miners, are here for the conference.

NAMED ON GRAND JURY.

Justice Siddons today named Michael A. Griffin, 209 Pennsylvania avenue northwest, foreman of the grand jury, to serve for the next three months. The other members of the grand jury are: W. T. Brady, T. D. Towell, Wm. A. Hall, Charles W. King, Jr., Paul

Esby-Smith, Charles S. Kimball, Charles P. Seebold, Harrison Sidham, C. H. Martin, John P. Darcey, G. G. Pearson, William H. Earnest, William B. Beckwith, William H. Harey, Samuel P. Harbin, J. Sprigg Duval, William H. Shike, Patrick O'Donnell, John Reed, Arthur Smoot, Edward F. Frey, and John Pearson.
